Ruler Quilting Academy

with
HollyAnne Knight

"I love your videos, you explain things clearly. You are inspiring, and I love that you sometimes have a bobble but you keep going—that means I can too. Your Q&A sessions are fun. Your enthusiasm is contagious."

-Elizabeth W.

"I really enjoyed RQA and felt like a learned a lot. I took your Introduction to Rulers in 2021, and RQA took my skills to a new level."

-Mary F.

Ruler Quilting Academy

A proven method

Inside RQA, we will build on the lessons from the challenge in eight weeks of step-by-step video lessons designed to help you become confident quilting with rulers.

Ruler Quilting Academy

Lifetime access teaching you all the skills you need for successful ruler quilting, from start to finish:

- **Six video units** full of tips, tricks, and motifs. From stitch in the ditch to complex clamshell borders, I have a tool box of ruler techniques to teach you
- **Live video Q&As** so you can ask questions and we can talk about how to blend FMQ with ruler quilting to create amazing finished quilts.
- **Full-color workbook** with doodle pages, quick guides, and more
- **Ongoing updates:** I'm going back to basics with this new course and filming it myself. But you'll get the full update (at no extra charge) when we professionally film this course later.

I loved the “permission to play”! Great videos to show us how to do each motif but no firm requirement on how we had to use it in the final project. I really thought this would be difficult but once I got going it really isn't that hard. Practice is fun! You give us the confidence to get past our fears and get started! I really enjoyed this class, possibly even more than the free motion one.

-Megan M.

I loved learning how to use the rules to make different shapes for backgrounds, fillers, and borders. I love HollyAnne's "realness" in her teaching and her positive, encouraging attitude.

-Gayle M.

I love HollyAnnr's enthusiasm and positivity, as well as her energy! Love being able to go back to each lesson to watch and practice a design."
