String  Story

# Longarm Prep(aratory)

with  
HollyAnne Knight

**This course gave me the confidence to jump right in and learn my longarm I had recently purchased.** I bought it because I make a lot of child sized donation quilts and wanted to be able to quilt them and volunteer my quilting services to help others finish and donate the quilt tops. So far I have done all over patterns of various designs and one semi custom pattern. I feel without this course I would have gotten discouraged and not put my machine to good use. I am so happy I invested in myself and purchased this course.

**- Anna S.**

I have been longarming for 5 years but fully self taught. I learned so many tips and tricks, as well as the knowledge that I WAS doing most of it right. Between this course and FMQA, I now have the confidence to take in customer quilts, not just friends. **And I can now express my creativity with confidence.** Thank you HollyAnne and support crew. You have opened up a whole new wonderful world for me, and I now have confidence in my own ability.
